

Riggers dollies are an excellent “all around” piece of equipment, that every rigger or machinery mover must have.

### FEATURES & BENEFITS

- Models RDTS-30 & RDTS-8 can be turned on it's own axis
- Tilting for uneven surfaces
- Lightweight, easy to handle
- Low profile
- All purpose moving
- Maximum durability
- Extended resting loads
- Rough/uneven floors
- Swivel tops easily removable with a standard hex key
- Most models have a low 4" height to minimize jacking of the load. Available in standard straight, tilt, non-tilt, heavy duty, swivel and steerable styles.
- The heavy duty welded frame makes them the most durable and long lasting of it's kind. The high-carbon steel axles run the entire length of each roller for easy operation.

**RDTS-20**  
steel rollers

**RDTS-30-P**  
poly rollers

**RDTS-8**  
steel rollers

**RDTS-40**
